

Whitgift

The Whitgift is one of the South East's leading shopping centres, including such stores as Marks & Spencer, Alders, Boots, BHS, and over 30 independent retailers. Our project involved a Cat A and Cat B fitout of the Centre Tower office building within and owned by the shopping centre.

The works to the Main Reception included removal of all existing finishes including stone floor and ceilings and installing new ceramic floors, metal pan ceilings, lighting, power, heating, high quality finishes, lift refurbishment and furniture installation. These works were especially demanding due to the fact that the Reception area is maintained as a 24/7 route to the office spaces above and is at the centre of a busy shopping centre. The works to the Ninth Floor included stripping out of all existing finishes and services and installation of a new floor mounted air conditioning system, raised floor and ceiling installation and refurbishment of WCs and public areas to a Cat A fitout.
